e& to Feature Kody Technolab's Patented Odigo Robot at GITEX 2024, Pioneering AI-Driven Customer Engagement

Odigo, Kody Technolab's patented advanced mobility robot, will transform customer experiences at e&'s GITEX 2024 booth

Dubai, UAE [14th October, 2014] – Kody Technolab Limited, a global leader in robotics and AI, will launch its patented Odigo robot at GITEX 2024 in strategic partnership with e& (etisalat and), the largest provider of smart living solutions in the Middle East. Powered by AI and machine learning, Odigo will interact with visitors at the e& booth, offering personalized experiences based on real-time emotional responses.

At GITEX 2024, e&'s booth will highlight Odigo's advanced mobility and interactive features. Odigo uses facial expression recognition and adapts content and audio to suit each visitor's emotions. This will create a unique, personalized experience for every attendee. This technology showcases e&'s focus on innovation and customer-centric smart living solutions, supporting its mission for sustainable smart living spaces.

“Odigo marks a significant leap forward in AI-driven customer engagement, and we are thrilled to showcase this technology with e& at GITEX 2024,” said Manav Patel, Managing Director at Kody Technolab Limited. “Odigo is more than just a robot; it's an intelligent companion capable of understanding and responding to human emotions in real time, ultimately creating a more meaningful connection between brands and their customers.”

The strategic partnership between Kody Technolab Limited and e& at GITEX 2024 highlights the blend of cutting-edge robotics and the Middle East's focus on advancing smart living. With Odigo, e& strengthens its position as a leader in customer engagement by using AI and machine learning to improve interactions and provide unmatched service.
