The Year Gone By

FY 23-24 was a landmark year for Kody Technolab, defined by significant achievements in AI, robotics, and IT services, culminating in our successful IPO. This year, we not only showcased our innovations at key industry events but also received widespread media recognition, further solidifying our position as a frontrunner in the technology sector.

Showcasing Innovation at Major Events

Our journey through the year began at GITEX Global 2023, one of the world's largest technology exhibitions. This event was particularly significant as it provided a stage for us to present our full suite of robotics solutions —Dasher, Athena, Telos, and Vulcan—to an international audience. The showcase was a resounding success, drawing attention from potential partners and clients worldwide. Our participation at GITEX reinforced Kody Technolab's status as a global player in the tech industry, paving the way for future innovations and market expansion.

Following GITEX, we made a strong impression at the Vibrant Gujarat Global Summit 2024. Skanda, our humanoid robot, was the centerpiece of our presentation, demonstrating its potential to revolutionize industries ranging from healthcare to logistics. The summit, which attracted leaders and innovators from around the globe, provided a platform for us to highlight Skanda's capabilities in driving a futuristic vision for India. The event significantly enhanced our visibility and opened up discussions for strategic partnerships and collaborations.

Our next significant appearance was at the Gujarat Police Expo 2024, where both Skanda and Athena were showcased. Athena's advanced AI capabilities and potential applications in law enforcement captured the interest of the Gujarat Police, who considered Athena for various security operations. This event underscored our commitment to developing solutions that meet the specific needs of critical sectors like public safety. Divya Bhaskar highlighted Skanda in its coverage, emphasizing its potential to revolutionize security protocols.

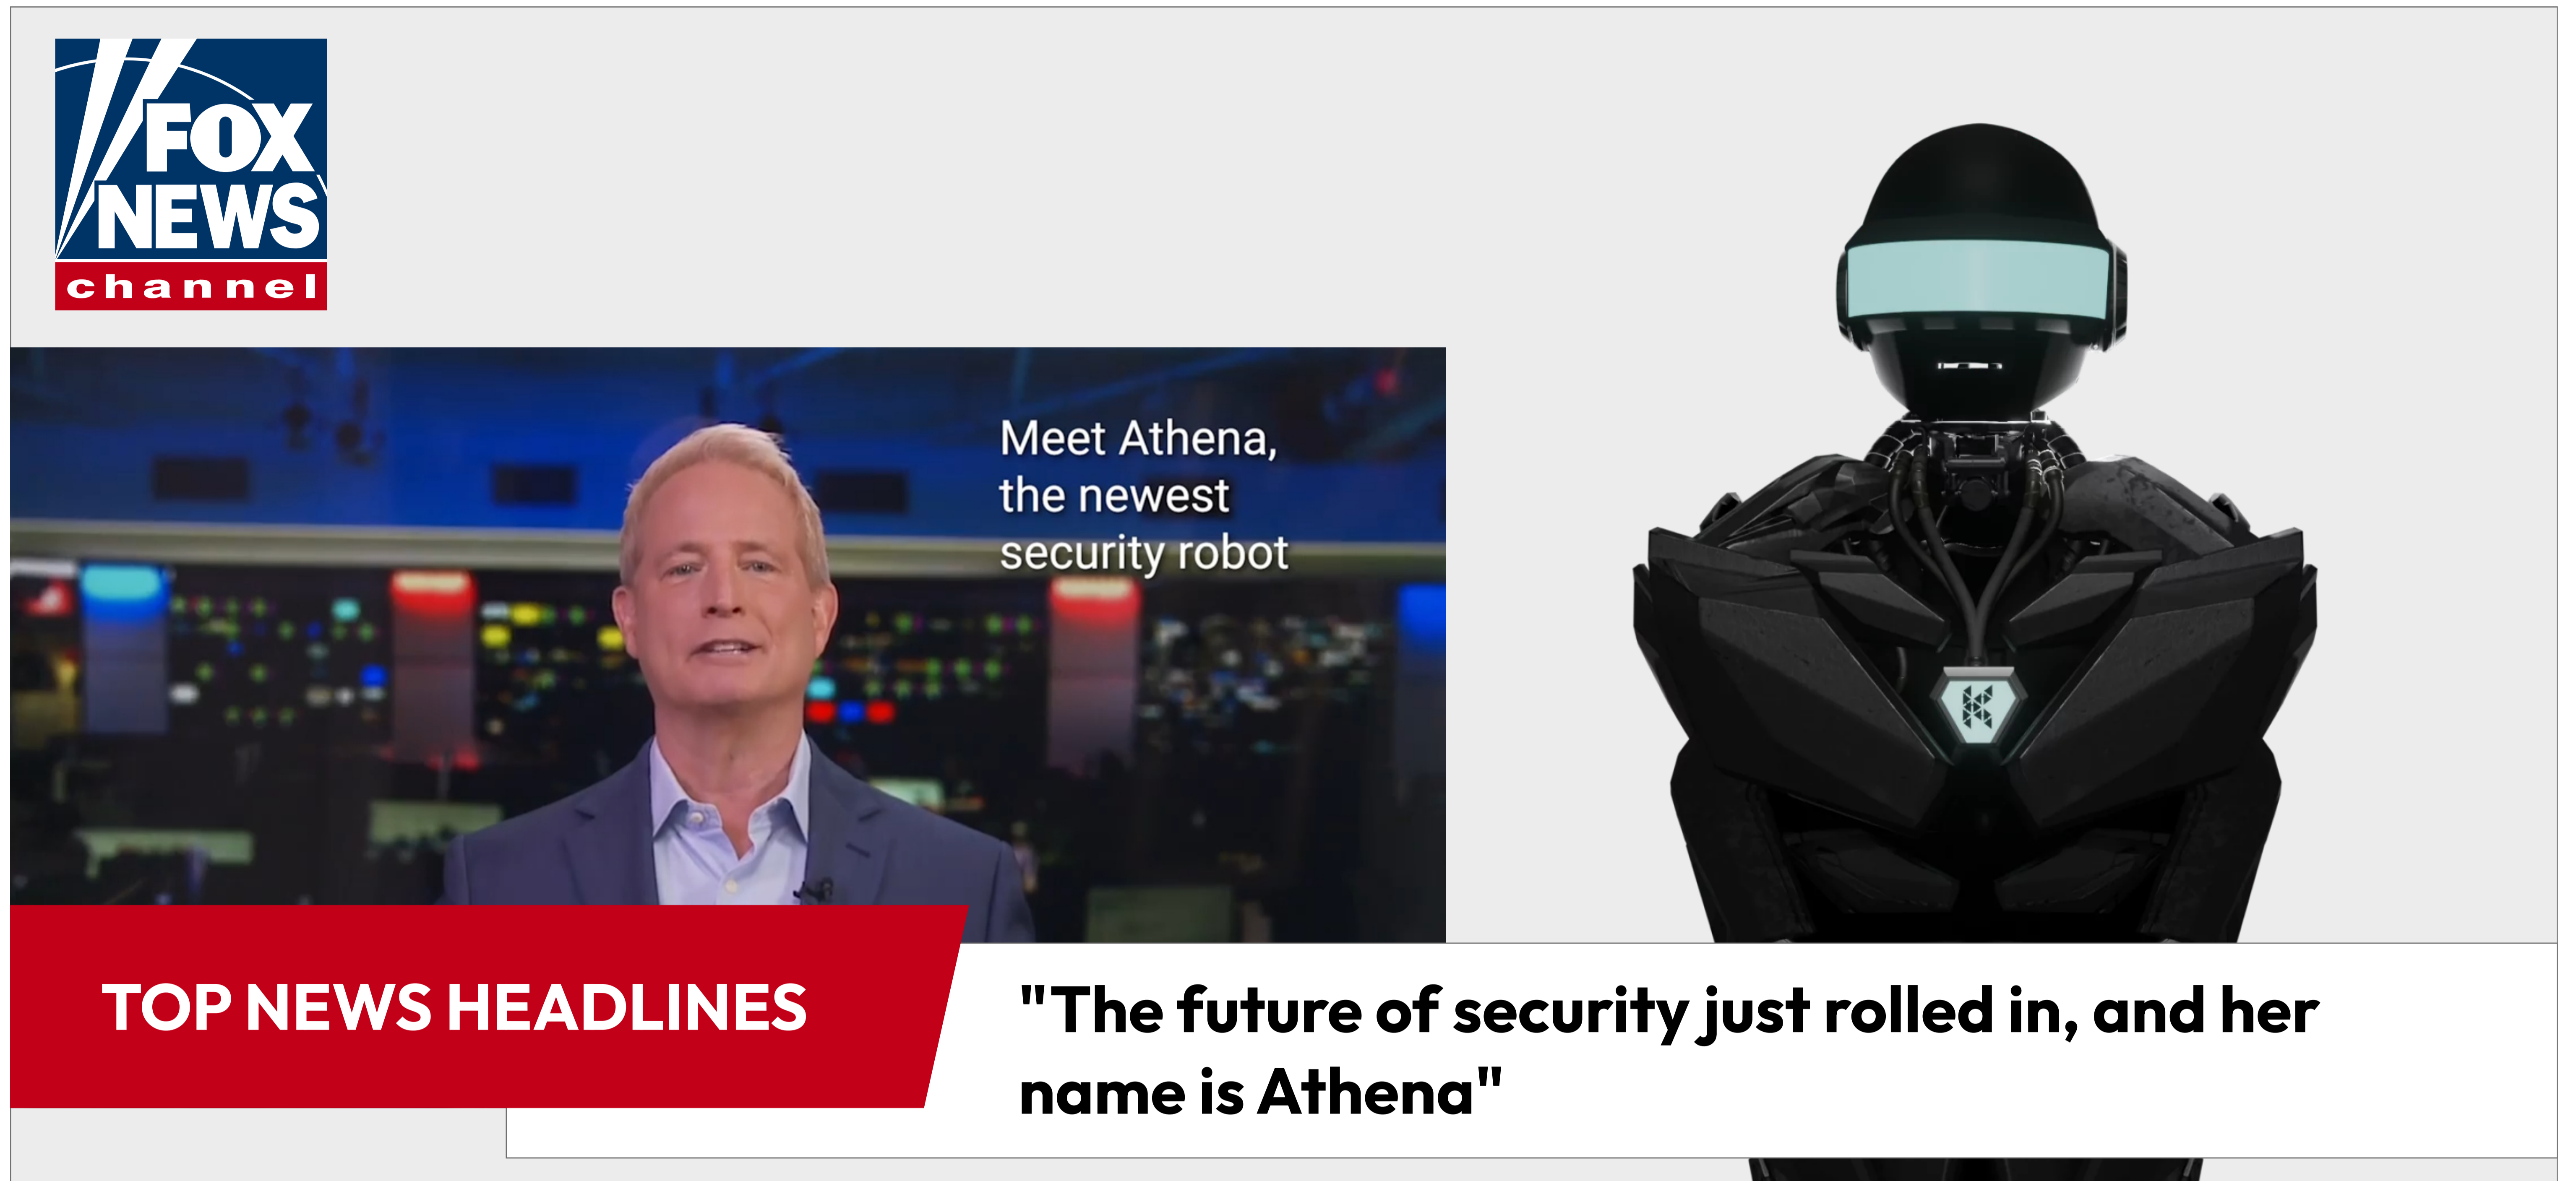

The year concluded with our participation in the Tuneland Music Fest 2024, where we demonstrated the versatility of our robotics solutions in the entertainment industry. Dasher, our smart delivery robot, served VIP guests, enhancing their experience with seamless, efficient service, while Athena ensured the safety and security of the large crowds, monitoring the event with facial recognition and real-time data. The impact of our technology at this event was significant, drawing the attention of The Week, which featured an article on how our robots elevated both service and security standards at the fest.

Media Recognition and Strategic Milestone

Our technological achievements were widely recognized in the media throughout the year. FOX News and Interesting Engineering both featured our surveillance robot Athena, spotlighting its capabilities in enhancing security across various environments. Apart from FOX and IE, Kody Technolab's robots also got featured in Divya Bhaskar, The Week, The Print and many other known news outlets. These features were more than just media coverage—they were validations of our commitment to using cutting-edge technology to solve real-world challenges

FY 23-24 will also be remembered as the year we achieved a significant strategic milestone—our successful IPO. This achievement marked a new chapter in our journey, providing us with the financial strength and market confidence to accelerate our growth. The IPO was not just a financial milestone but also a testament to the trust that investors and stakeholders place in our vision for the future. It positioned us to further our ambitions in AI and robotics, driving innovation and expanding our reach in global markets.

Reflecting on Progress and Looking Ahead

As we reflect on the year gone by, it is clear that the year was a turning point for Kody Technolab. Our successful execution of our event strategy, the widespread media recognition, and the achievement of our IPO have all contributed to laying a strong foundation for the future. These accomplishments have not only enhanced our brand visibility but have also solidified our reputation as a leader in the robotics and AI industries.

Looking ahead, we are more committed than ever to pushing the boundaries of what is possible in technology. The experiences and successes of 2024 have set the stage for continued innovation, growth, and global impact. We are excited about the future and ready to take on the challenges and opportunities that lie ahead.

The Nomination and Remuneration Committee reviewed the performance of the individual directors and the Board as a whole.

In the Board meeting that followed the meeting of the independent directors and the meeting of Nomination and Remuneration Committee, the performance of the Board, its committees, and individual directors was discussed.

The evaluation process endorsed the Board Members' confidence in the ethical standards of the Company, the resilience of the Board and the Management in navigating the Company during challenging times, cohesiveness amongst the Board Members, constructive relationship between the Board and the Management, and the openness of the Management in sharing strategic information to enable Board Members to discharge their responsibilities and fiduciary duties.

The Board carried out an annual performance evaluation of its own performance and that of its committees and individual directors as per the formal mechanism for such evaluation adopted by the Board. The performance evaluation of all the Directors was carried out by the Nomination and Remuneration Committee.

The performance evaluation of the Chairman, the Non-Independent Directors and the Board as a whole was

Pursuant to the provisions of the Companies Act, 2013 and SEBI (Listing Obligation and Disclosure Requirements) Regulations, 2015, the Board has carried out the annual performance evaluation of the Directors individually as well as evaluation of the working of the Board by way of individual feedback from directors.

The evaluation frameworks were the following key areas:

a) For Non-Executive & Independent Directors:

- Knowledge
- Professional Conduct
- Comply Secretarial Standard issued by ICSI Duties
- Role and functions

b) For Executive Directors:

- Performance as leader
- Evaluating Business Opportunity and analysis of Risk Reward Scenarios
- Key set investment goal
- Professional conduct and integrity
- Sharing of information with Board.
- Adherence applicable government law

The Directors expressed their satisfaction with the evaluation process.

MANAGEMENT DISCUSSION AND ANALYSIS REPORT

1. Global Economy and Outlook:

Global technology spending grew at a slower pace of 4.4% year-over-year in the calendar year ended December 31, 2023, with enterprise software and IT services being the primary drivers of growth and degrowth seen in hardware and devices according to the Strategic Review 2024 published by NASSCOM (the 'NASSCOM Report'). Digital transformation and infrastructure modernization continue to be a global priority, with a particular focus on cloud and cybersecurity. We expect that increased interest and adoption of technologies such as automation, intelligent applications, and AI including responsible AI, GenAI-enabled

The global robotics market was valued at USD 46 billion in 2023, according to IMARC Group. The International Federation of Robotics (IFR) reported that the industrial robot market is expected to grow by 7% to over 590,000 units worldwide in 2023. Notably, 73% of newly deployed robots were installed in Asia, with China being the world's largest robotics market and Japan leading in robot manufacturing. Robotics is transforming multiple industries such as manufacturing, hospitality, security and surveillance, retail, healthcare, and logistics, enabling companies to achieve higher levels of efficiency, precision, and scalability.

In manufacturing, AI-driven robotics is revolutionizing production lines, leading to the emergence of smart factories that operate with unprecedented precision and efficiency. The deployment of industrial robots is expected to grow at a CAGR of 12% between 2023 and 2032. This growth is due to the increasing demand of collaborative robots in various sectors like automotive, electronics, and food processing. These advancements are not only enhancing productivity but also reducing costs and improving safety in the workplace.

In the hospitality industry, robotics adoption is expected to grow significantly, with the market projected to register a CAGR of about 25.2% between 2023 to 2029.. The increasing use of robotics, from AI-powered chatbots to robot assistants in hotels, is driven by the need for enhanced customer satisfaction and operational efficiency. Advancements in AI, machine learning, and IoT are making these robots more versatile and affordable, leading to broader adoption for tasks like concierge services, housekeeping, luggage handling, and food preparation.

In the security and surveillance industry, the global security robots market reached USD 11.1 billion in 2023 and is expected to grow at a CAGR of 11.3%, reaching USD 29.9 billion by 2032, according to IMARC Group. The development of automation, sensor technologies, and neural networks has significantly enhanced the capabilities of security robots, allowing them to operate in challenging environments, provide real-time analytics, and perform surveillance with greater accuracy. These advancements are driving their adoption in various applications, from commercial security to military operations.

In retail, we are leveraging AI and robotic automation to optimize inventory management, enhance in-store experiences through personalization, and streamline supply chains. Robotics in retail goes beyond automating tasks; it's about enhancing customer engagement and improving the overall shopping experience. The adoption of robotics in this sector is expected to grow significantly as companies increasingly use robots for tasks like shelf scanning, customer assistance, and order fulfillment.

2% Grow

2.7x
collaborations

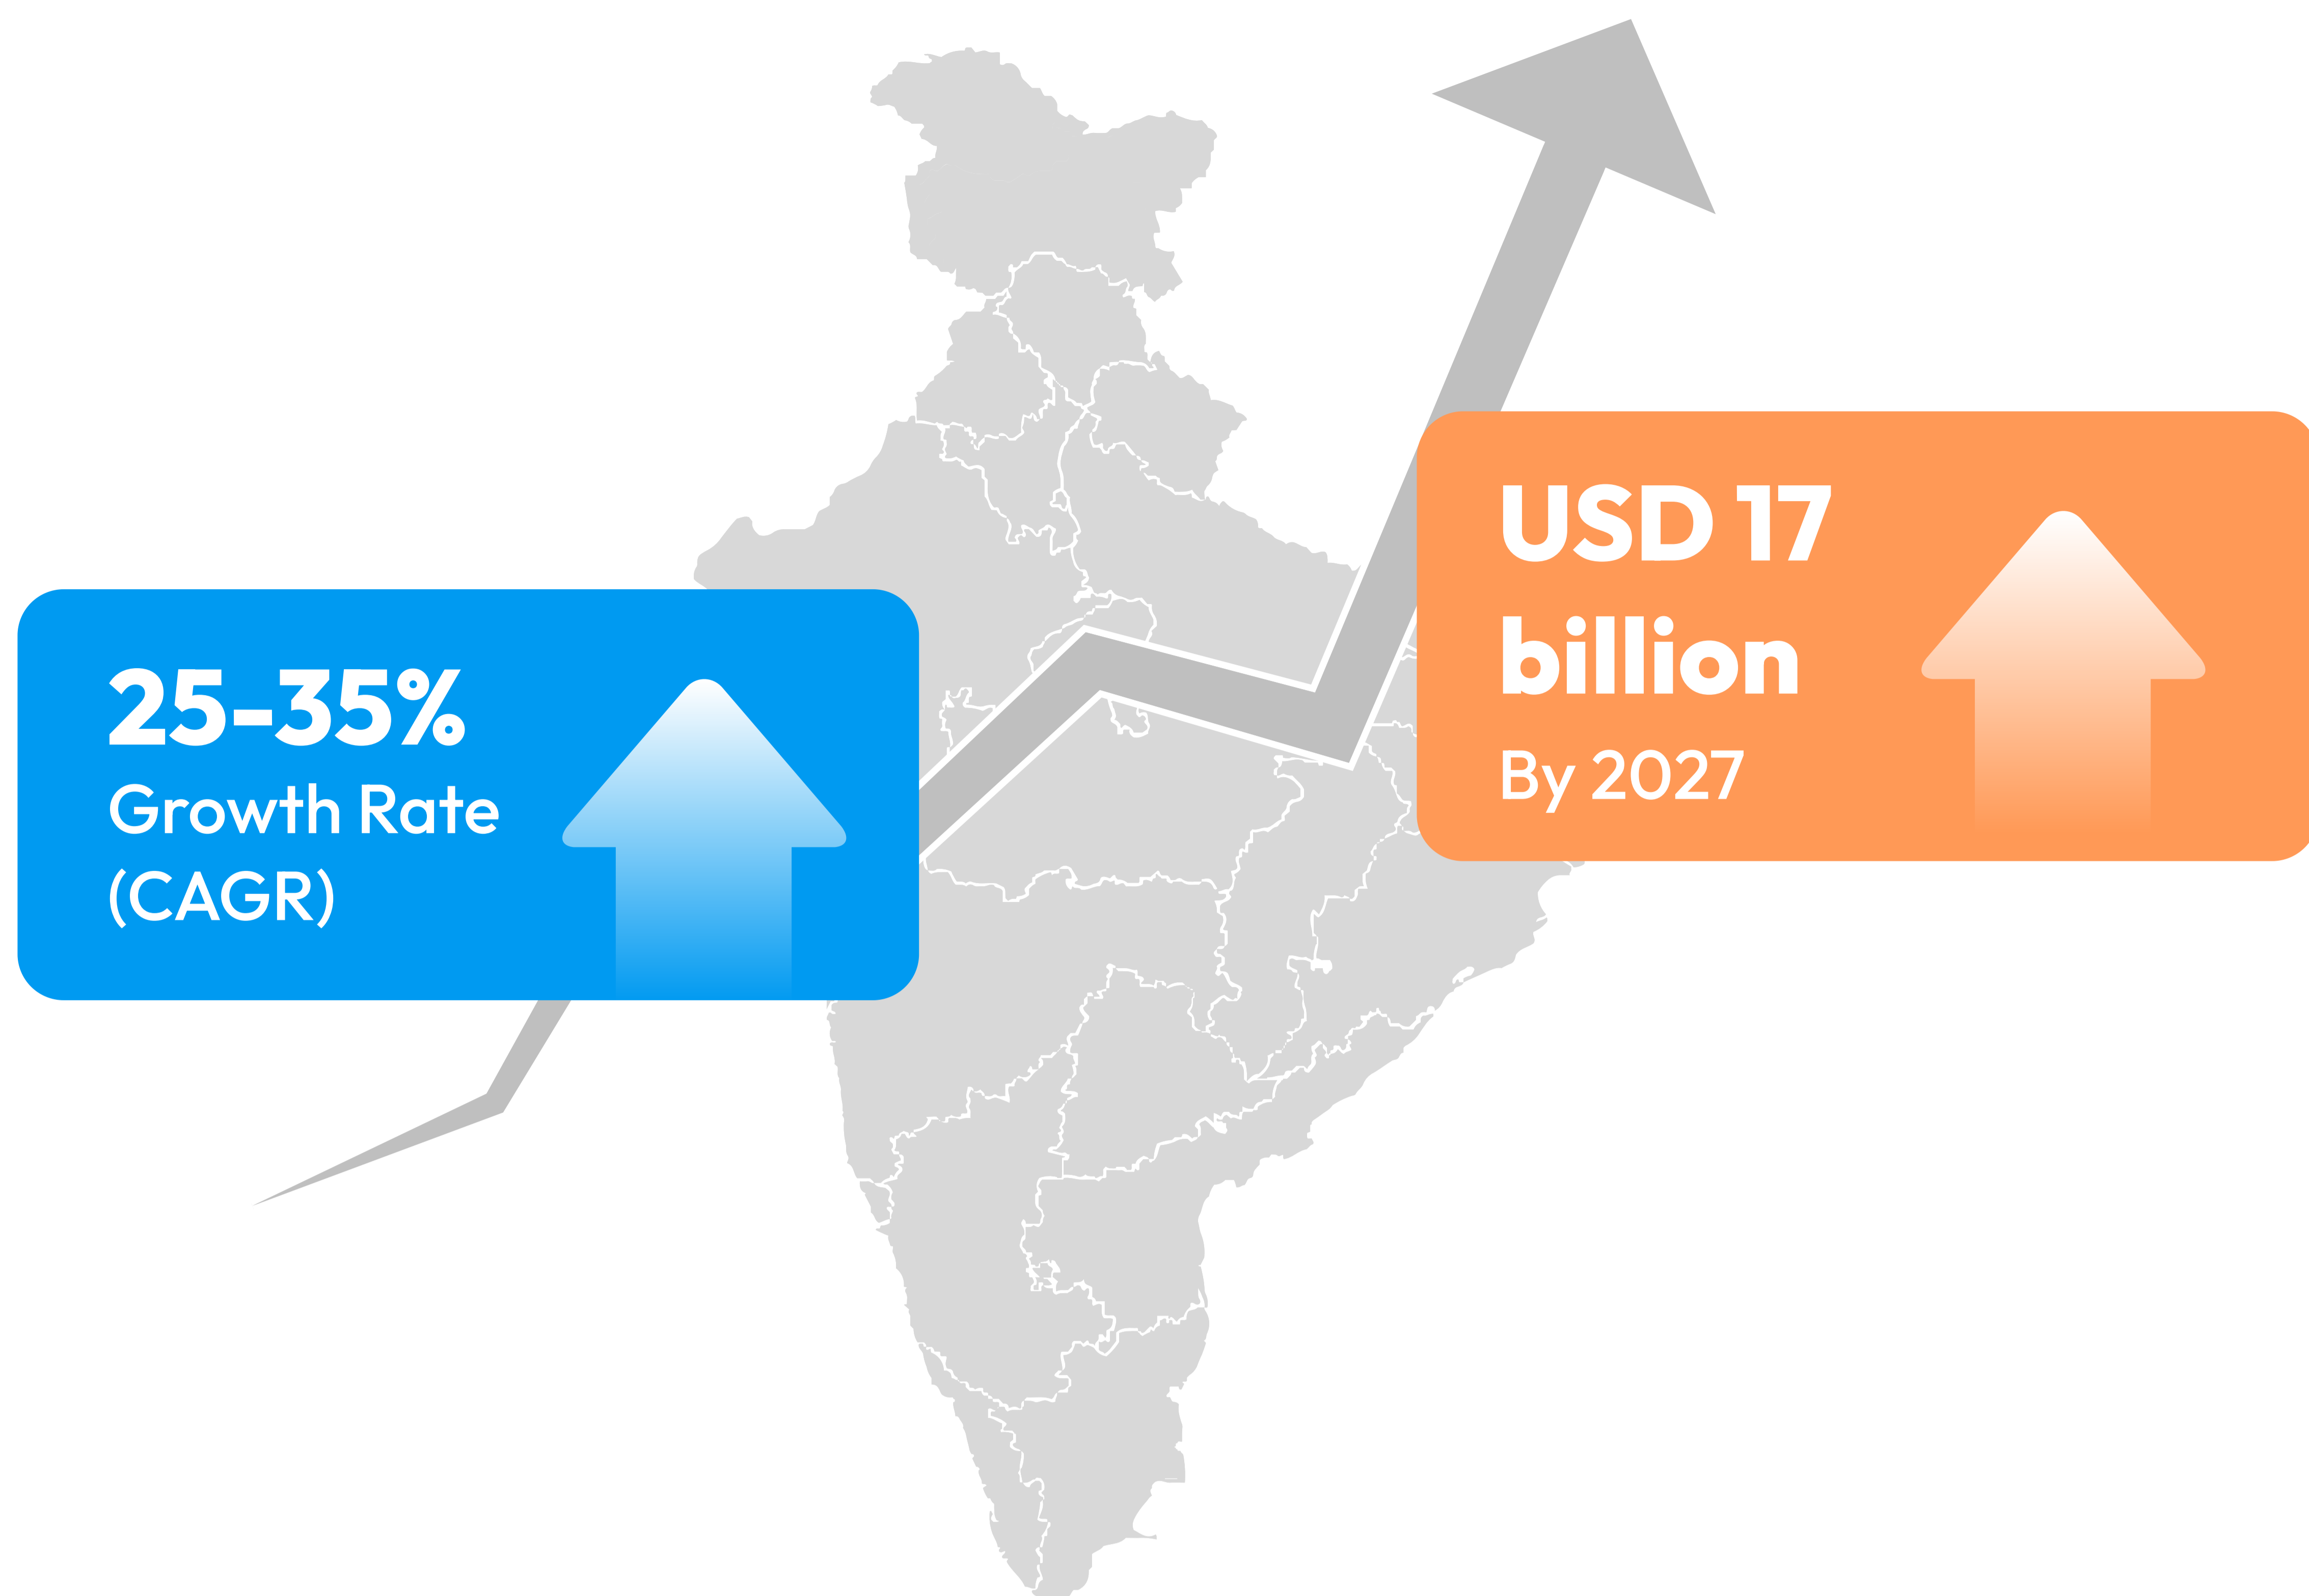

As global IT service providers, we are uniquely positioned to support enterprises across these diverse industries. We offer comprehensive solutions that encompass digital transformation, application development, and AI-driven automation. Looking ahead to fiscal year 2025, we expect investments in AI and robotics to accelerate, with a focus on cost optimization, operational excellence, and enhancing customer experiences. The increasing adoption of cloud-based services, IT modernization, and digital engineering projects underscores the pivotal role of technology in driving business growth.

In the Indian IT services sector, revenue is anticipated to grow by 2% year-over-year in fiscal year 2024, driven by infrastructure management, networking services, and cloud-based software testing. The surge in AI-related activities, with a 2.7x increase in collaborations, product launches, and GenAI strategies, highlights the critical role AI and robotics will play in shaping the future of the industry. As governments worldwide develop regulations to ensure the responsible use of AI, including data protection and breach detection, I expect broader and more secure adoption of these technologies in the coming years.

At Kody Technolab, we are at the forefront of these advancements, integrating AI, robotics, and app development to deliver intelligent solutions for an automated future. With our expertise and innovative approach, we are well-positioned to capitalize on these global trends, driving transformation and value across industries.

2. Indian Economy and Outlook:

India continues to be one of the fastest-growing major economies in the world, supported by solid macroeconomic fundamentals. Our growth momentum remains strong, driven by robust domestic consumption, high public capital expenditure, a recent surge in private investments, and robust exports of services. However, as we navigate the global landscape, potential risks such as lower external demand, tighter global financial conditions, and increasing geopolitical conflicts pose challenges that we must address.

To sustain this growth, it's essential to implement appropriate fiscal and monetary policies, improve educational outcomes, and ensure the economy is resilient to future shocks. Additionally, attracting investments to support green transitions will be crucial in maintaining long-term economic stability.

In this context, technological advancements, particularly in AI, are playing a pivotal role in bolstering India's economic resilience. According to a report by NASSCOM and Boston Consulting Group (BCG), India's AI market is projected to grow at a compound annual growth rate (CAGR) of 25-35% and is expected to reach USD 17 billion by 2027 (Business Standard). This growth is being driven by increasing enterprise tech spending, the expansion of AI-driven services, and the development of innovative AI applications across various sectors, including manufacturing, healthcare, and retail.

The manufacturing sector, for example, is increasingly adopting AI technologies to enhance operational efficiency and precision. The rise of smart factories, powered by AI, is a key contributor to the projected increase in manufacturing output, with the sector expected to contribute significantly to India's GDP in the coming years. AI-driven automation is enabling manufacturers to optimize production processes, reduce costs, and improve safety standards, positioning India as a global leader in smart manufacturing.

In healthcare, AI is making significant strides by improving patient outcomes and streamlining operations. AI applications are being used for predictive diagnostics, personalized medicine, and efficient hospital management, which are critical as the healthcare sector continues to evolve in response to growing demand and technological advancements.

The retail sector is also undergoing a transformation with the integration of AI. From optimizing inventory management to enhancing customer experiences through personalization, AI is driving innovation and efficiency in retail operations. The increasing adoption of AI in retail is expected to contribute significantly to the sector's growth, helping businesses stay competitive in a rapidly evolving market.

While the focus has been largely on AI, it's important to note that robotics, although intertwined with AI, continues to play a crucial role in advancing these industries. AI-powered robotics are enhancing productivity and operational capabilities in both manufacturing and service sectors, contributing to India's overall economic growth.

The domestic financial system, strengthened by the improving health of financial institutions, is well-positioned to support these technological advancements. The inclusion of Indian government securities in the JP Morgan Global Bond Index - Emerging Markets from June 2024 is a positive development, enhancing the outlook for capital flows into India and further supporting our economic growth.

However, we must also be mindful of domestic challenges, such as the potential impact of El Niño conditions on agricultural output and food prices. Addressing these risks will require a balanced approach that leverages technology while ensuring the equitable distribution of economic benefits.

We, at Kody Technolab, are committed to playing our part in this economic transformation. Our expertise in AI, robotics, and app development allows us to contribute to India's growth by delivering innovative solutions that enhance productivity, foster sustainability, and drive value across industries.

3. Industry structure and development:

In Fiscal 2024, we witnessed significant shifts in the global technology landscape, influenced by policy tightening and a reduction in inflation across key markets. Global GDP growth was estimated at 3.2% in 2023, a slight decline from 3.5% in 2022, reflecting the broader economic challenges. Despite these headwinds, global IT spending on software and IT services reached approximately \$2.3 trillion, with IT services alone accounting for \$1.4 trillion.

The industry is increasingly moving towards artificial intelligence (AI), generative AI, and robotics as critical areas of investment. These technologies are rapidly becoming essential tools for businesses aiming to enhance resilience, agility, and innovation in uncertain economic times. We saw generative AI beginning to reshape the industry in Fiscal 2024, driving new approaches to cost structures, business resilience, and customer and employee personalization.

The robotics sector is also playing a transformative role, particularly in industries such as manufacturing, healthcare, logistics, and security. The global robotics market, valued at USD 46 billion in 2023, is expected to continue growing as companies adopt robotics to achieve higher levels of efficiency, precision, and scalability. Investments in robotics are projected to grow significantly, with an increasing focus on integrating AI to enhance robotic capabilities.

In addition to AI and robotics, app development remains a cornerstone of digital transformation. As businesses continue to innovate and adapt to changing market conditions, the demand for advanced, user-centric applications is growing. These apps are critical for supporting AI and robotics deployments, enabling businesses to unlock new opportunities and drive growth.

At Kody Technolab, we are uniquely positioned to lead in this evolving landscape. Our expertise in AI, generative AI, robotics, and app development allows us to capitalize on these trends, offering innovative solutions that address the challenges and opportunities of today's market. As we look ahead, we are confident in our ability to continue driving transformation and delivering value to our clients across industries.

4. Opportunities and Threats:

Opportunities:

The rapid advancements in AI, robotics, and app development present significant opportunities for us. As industries increasingly integrate these technologies into their operations, we are well-positioned to offer solutions that provide both scalability and speed, particularly in sectors such as manufacturing, healthcare, and logistics.

The global robotics market, valued at USD 46 billion in 2023, is expected to continue its growth as businesses adopt automation to enhance efficiency and precision. Our leadership in these emerging technologies, coupled with our deep domain capabilities, enables us to capitalize on the growing global IT spending, which reached approximately \$2.3 trillion in 2023.

USD 2.3 trillion 2023

India's expanding technology infrastructure also presents substantial opportunities, especially in the financial services sector. As the country's digital landscape evolves, our ability to support businesses in their digital transformation journeys positions us to drive growth and innovation in this dynamic environment. Moreover, the increased adoption of robotics across various industries in India further strengthens our ability to deliver cutting-edge solutions.

Threats:

We face a variety of interconnected risks in this rapidly evolving landscape. Global economic uncertainty, driven by geopolitical conflicts, policy tightening, and inflation, could impact

client spending, particularly in discretionary areas. Additionally, the rapid pace of technological change presents both opportunities and threats. In the robotics sector, competitors who develop and deploy new robotic technologies faster may challenge our market position.

As we expand our offerings in AI and robotics, cybersecurity and data privacy become increasingly critical. Ensuring robust data protection and compliance with global regulations is essential to maintaining trust and mitigating legal risks.

Operationally, the competition for skilled talent in AI, robotics, and app development is intense. Our ability to attract and retain top talent is crucial to sustaining our growth and innovation. To mitigate these risks, our Enterprise Risk Management (ERM) framework enables us to efficiently manage uncertainty, prioritize risks, and enhance our capacity to build shareholder value.

Opportunity	Our Approach
AI and Robotics Integration	Leverage our expertise in AI and robotics to offer scalable, efficient solutions across sectors like manufacturing, healthcare, and logistics.
Expanding Technology Infrastructure	Capitalize on India's growing digital infrastructure to support businesses in their digital transformation journeys.

Threats	Our Approach
Rapid Technological Change	Continuously innovate and invest in R&D to stay ahead of competitors, ensuring we adopt and integrate emerging technologies swiftly.
Cybersecurity and Data Privacy	Implement robust cybersecurity measures and ensure compliance with global data protection regulations to maintain trust and mitigate risks.
Talent Acquisition and Retention	Focus on attracting and retaining top talent in AI, robotics, and app development through competitive offerings and a strong company culture.

4. Segment-wise or product-wise performance:

Our company continues to primarily operate in the IT and IT-enabled services segment, which has been the cornerstone of our business. This segment drives consistent growth and is vital to our overall performance. Through our innovative technology solutions, we have successfully aligned our services to meet the evolving demands of our clients, ensuring we remain competitive in a rapidly changing market.

In addition to our core IT services, we have developed a new line of products in the robotics segment, which represents a significant growth opportunity. At Kody Robots, we engineer intelligent robots designed to enhance business efficiency through sophisticated automation. Our product line includes:

Dasher

A smart delivery robot tailored for the hospitality industry, Dasher revolutionizes in-house deliveries by enhancing customer service in restaurants, corporate offices, and healthcare facilities. Its capabilities, such as autonomous charging and smart obstacle avoidance, position it as a leader in service automation.

Athena

Our advanced surveillance robot, Athena, is designed for security and surveillance in environments like shopping malls, corporate campuses, and sensitive facilities. Equipped with features like AI-based people detection, thermal imaging, and 360° HD recording, Athena enhances safety and minimizes risks.

Vulcan

Vulcan is our autonomous floor-cleaning robot, engineered for industrial and healthcare settings. It automates substantial cleaning tasks, ensuring high cleanliness standards and operational safety with features like AI-powered cleaning and obstacle avoidance.

Telos

A versatile robotic arm, Telos is designed for industries requiring precision and efficiency in tasks such as assembly, painting, and packaging. Its ease of integration and advanced safety mechanisms make it ideal for collaborative environments.

Our vision for the robotics segment aligns with our long-term goals of driving innovation and expanding our market presence. We plan to enhance our current product line and develop new solutions like Skanda, our humanoid robot, which we aim to deploy across various industries, including defense, logistics, and hospitality.

The strategic significance of the robotics segment lies in its potential to complement our IT services and address the evolving needs of our clients. As we continue to innovate and expand, we see substantial market opportunities across multiple sectors, making our robotics offerings a key pillar of future growth.

5. Future Outlook:

As we move into FY25, Kody Technolab is poised to capitalize on the rapid advancements in AI, robotics, and app development. Our strategic positioning, with a strong foundation built on expanded capabilities and robust partnerships, enables us to align with emerging market demands and technological trends.

The global landscape is evolving, with significant growth expected in industries such as manufacturing, healthcare, hospitality, retail, and security, where automation and AI-driven solutions are becoming indispensable. Our current robotics products are already making strides in these sectors, and we are positioned to further customize, enhance and expand our offerings. For instance, along with our robots for hospitality and security, we also have our own humanoid robot, Skanda, which is slated for significant development, aiming to serve a wide range of industries from defense to logistics and hospitality.

In addition, we plan to launch new robots tailored for the retail industry, such as a navigation and advertising robot. These innovations will allow us to tap into new market segments and address evolving industry needs.

For the IT and IT services segments, India's expanding digital infrastructure, presents substantial opportunities for us. Our ability to support businesses in their digital transformation journeys will be key to driving growth and innovation in this dynamic environment. As digital adoption accelerates, we expect to see a continued shift toward AI, robotics, and smart applications, areas where we have established strong capabilities.

Looking ahead, our commitment to continuous innovation remains unwavering. We are focused on developing next-generation AI and robotics solutions that address the complex challenges faced by our clients. By staying at the forefront of technological advancements, we will continue to deliver value and drive transformation across industries.

In FY25, we are confident that our strategic initiatives, supported by our deep expertise and market insights, will enable us to execute effectively and seize new opportunities. We are excited about the future and are committed to making the most of every opportunity that comes our way.

6. Risks and concerns:

- Risk of economic slowdown or recession in global economic growth
- Revenue Risk - Slackness in demand from existing customers impacting revenue growth
- Cyber Security and Privacy Risks - Risk of data theft, deviation to information security requirement and cyber attacks
- Human Capital Risks - High attrition levels, Involuntary churn, and employee productivity due to work from home (WFH)
- Statutory Compliance Risk - Tracking changing compliance requirements across geographies
- Technology Risk - Risk of deficiencies in emerging competencies

7. Internal control systems and their adequacy:

The Company has implemented proper system for safeguarding the operations / business of the company, through which the assets are verified and frauds, errors are reduced and accounts, information connected to it are maintained such, so as to timely completion of the statements.

The Company has adequate systems of Internal Controls commensurate with its size and operations to ensure orderly and efficient conduct of business. These controls ensure safeguarding of assets, reduction and detection of fraud and error, adequacy and completeness of the accounting records and timely preparation of reliable financial information. The Company has internal audit and verification at regular intervals.

The requirement of having internal auditor compulsory by statute in case of listed and other classes of companies as prescribed shall further strengthen the internal control measures of company.

8. Discussion on financial performance with respect to operational performance:

The financial performance of the Company for the Financial Year 2023-24 is described in the report of Board of Directors' of the Company.

9. Material developments in Human Resources / Industrial Relations front including number of people employed:

The cordial employer-employee relationship also continued during the year under the review. The Company has continued to give special attention to human resources.

10. Caution Statement:

Statements made in the Management Discussion and Analysis describing the various parts may be “forward looking statement” within the meaning of applicable securities laws and regulations. The actual results may differ from those expectations depending upon the economic conditions, changes in Govt. Regulations and amendments in tax laws and other internal and external factors.

INDEPENDENT AUDITOR'S REPORT

To the Members of
KODY TECHNO LAB LIMITED.

Report on the Audit of the Financial Statements

Opinion

We have audited the Financial Statements of KODY TECHNO LAB LIMITED (“the Company”), which comprise the balance sheet as at 31st March 2024, and the statement of profit and loss, statement of changes in equity and statement of cash flows for the year then ended, and notes to the Financial Statements, including a summary of significant accounting policies and other explanatory information [hereinafter referred to as “the Financial Statements”].

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid Financial Statements give the information required by the Companies Act, 2013 in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2024, and its profit/loss, (changes in equity) and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the Financial Statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Companies Act, 2013. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the Financial Statements under the provisions of the Companies Act, 2013 and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

“Information Other than the Financial Statements and Auditor's Report Thereon”

The Company's Board of Directors is responsible for the other information. The other information comprises the [information included in the report, but does not include the Financial Statements and our auditor's report thereon.

Our opinion on the Financial Statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the Financial Statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the Financial Statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation of these Financial Statements that give a true and fair view of the financial position, financial performance, (changes in equity) and cash flows of the Company in accordance with the accounting principles generally accepted in India, including the accounting Standards specified under section 133 of the Act. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the Financial Statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the Financial Statements, the Board of Directors is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so. Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the Financial Statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these Financial Statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- a. Identify and assess the risks of material misstatement of the Financial Statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- b. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Companies Act, 2013, we are also responsible for expressing our opinion on whether the company has adequate internal financial controls system in place and the operating effectiveness of such controls
- c. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- d. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the Financial Statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- d. Evaluate the overall presentation, structure and content of the Financial Statements, including the disclosures, and whether the Financial Statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the Financial Statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the Financial Statements may be influenced. We consider quantitative materiality and qualitative factors in

- I) Planning the scope of our audit work and in evaluating the results of our work; and
- II) to evaluate the effect of any identified misstatements in the Financial Statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the Financial Statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Companies Act, 2013, we give in the Annexure a statement on the matters specified in paragraphs 3 and 4 of the Order, to the extent applicable.
2. As required by Section 143(3) of the Act, we report that:
 - a) We have sought and obtained all the information and explanations which to the best of our knowledge and belief were necessary for the purposes of our audit.
 - b) In our opinion, proper books of account as required by law have been kept by the Company so far as it appears from our examination of those books.
 - c) The Balance Sheet, the Statement of Profit and Loss, the Statement of Changes in Equity and the Cash Flow Statement dealt with by this Report are in agreement with the books of account.
 - d) In our opinion, the aforesaid Financial Statements comply with the Accounting Standards specified under Section 133 of the Act, read with Rule 7 of the Companies (Accounts) Rules, 2014.
 - e) On the basis of the written representations received from the directors as on 31st March, 2024 taken on record by the Board of Directors, none of the directors is disqualified as on 31st March, 2024 from being appointed as a director in terms of Section 164(2) of the Act.
 - f) With respect to the adequacy of the internal financial controls over financial reporting of the Company and the operating effectiveness of such controls, refer to our separate Report in "Annexure A".
 - g) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - a. The Company does not have any pending litigations which would impact its financial position.
 - b. The Company did not have any long-term contracts including derivative contracts for which there were any material foreseeable losses.
 - c. There were no amounts which were required to be transferred to the Investor Education and Protection Fund by the Company.
 - d. I. The management has represented that, to the best of its knowledge and belief, other than as disclosed in the notes to the accounts, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the company to

or in any other person(s) or entity(ies), including foreign entities (“Intermediaries”), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, whether, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the company (“Ultimate Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries.

- II. The management has represented, that, to the best of it’s knowledge and belief, other than as disclosed in the notes to the accounts, no funds have been received by the company from any person(s) or entity(ies), including foreign entities (“Funding Parties”), with the understanding, whether recorded in writing or otherwise, that the company shall, whether, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party (“Ultimate Beneficiaries”) or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;
 - III. Based on such audit procedures which we have considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (i) and (ii) contain any material mis-statement.
- e. The company has not declared or paid any dividend during the year is in accordance with section 123 of the Companies Act 2013”, Hence clause not applicable.
 - f. Based on our examination, which included test checks, the Company has used accounting software for maintaining its books of account which have a feature of recording audit trail facility and the audit trail feature has been operating throughout the year for all relevant transactions recorded in the software.

As proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 is applicable from April 1, 2023, reporting under Rule 11 (g) of the Companies (Audit and Auditors) Rules, 2014 on preservation of audit trail as per the statutory requirements for record retention is not applicable for the year ended March 31, 2024.

ANNEXURE “A” TO THE INDEPENDENT AUDITOR’S REPORT

(Referred to in paragraph 1(f) under ‘Report on Other Legal and Regulatory Requirements’ section of our report to the Members of The KODY TECHNO LAB LIMITED of even date)

Report on the Internal Financial Controls Over Financial Reporting under Clause

(i) of Sub-section 3 of Section 143 of the Companies Act, 2013 (“the Act”)

We have audited the internal financial controls over financial reporting of KODY TECHNO LAB LIMITED as of March 31, 2024 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management’s Responsibility for Internal Financial Controls

The Board of Directors of the Company is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India. These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to respective company’s policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor’s Responsibility

Our responsibility is to express an opinion on the internal financial controls over financial reporting of the Company based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the “Guidance Note”) issued by the Institute of Chartered Accountants of India and the Standards on Auditing prescribed under Section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained, is sufficient and appropriate to Provide a basis for our audit opinion on the internal financial controls system over financial reporting of the Company.

Meaning of Internal Financial Controls over Financial Reporting

A company's internal financial control over financial reporting is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control over financial reporting includes those policies and procedures that

- (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company;
- (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and
- (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, to the best of our information and according to the explanations given to us, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2024, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India

There has been no resignation of the statutory auditors during the year. Accordingly, clause 3(xviii) of the Order is not applicable.

According to the information and explanations given to us and on the basis of the financial ratios, ageing and expected dates of realisation of financial assets and payment of financial liabilities, other information accompanying the standalone financial statements, our knowledge of the Board of Directors and management plans and based on our examination of the evidence supporting the assumptions, nothing has come to our attention, which causes us to believe that any material uncertainty exists as on the date of the audit report that the Company

is not capable of meeting its liabilities existing at the date of balance sheet as and when they fall due within a period of one year from the balance sheet date. We, however, state that this is not an assurance as to the future viability of the Company.

We further state that our reporting is based on the facts up to the date of the audit report and we neither give any guarantee nor any assurance that all liabilities falling due within a period of one year from the balance sheet date, will get discharged by the Company as and when they fall due.

The Provisions of Corporate Social Responsibility does not apply to the Company as it does not meet the threshold limit for applicability of the same. Consequently, reporting requirements under Clause (xx) of paragraph 3 of the Order are not applicable.

Annexure IV- Basis of preparation and Significant Accounting Policies
Significant accounting policies

1	Company Overview
	<p>M/s KODY TECHNOLAB LIMITED, incorporated on 5th Day of May 2017, having its registered office at 2nd floor, block-J, safal mondeal reatil park, Nr. iscon mall, Nr. rajpath club, S G Highway, bodakdev, ahmedabad-380054. The company is engaged in the business of mfg & assembly of robots & their accessories, software developer, appdeveloper & related service sector.</p>
Note:	Significant accounting policies
a)	Use of estimates
	<p>The preparation of the financial statements in conformity with generally accepted accounting principles in India requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. The Company's most significant estimates include those on the useful life of assets, deferred taxes and provision for taxes. Management believes that the estimates used in the preparation of the financial statements are prudent and reasonable. Actual results could differ from these estimates. Appropriate changes in estimates are made as management becomes aware of changes in circumstances surrounding the estimates.</p>
b)	Current-non-current classification
	Assets
	<p>An asset is classified as current when it satisfies any of the following criteria:</p> <ul style="list-style-type: none"> a) it is expected to be realised in, or is intended for sale or consumption in, the company's normal operating cycle; b) it is held primarily for the purposes of being traded; c) The Company has increased its authorized share capital to 50,00,000 shares at the Board Meeting held on 27/02/2023.

	<p>d) It is cash or cash equivalent unless it is restricted from being exchanged or used to settle a liability for at least 12 months after the reporting date. Current assets include the current portion of non-current financial assets. All other assets are classified as non-current.</p>
	<p>Liabilities</p>
	<p>A liability is classified as current when it satisfies any of the following criteria:</p> <p>a) It is expected to be settled in the company's normal operating cycle; b) It is held primarily for the purposes of being traded; c) It is due to be settled within 12 months after the reporting date; or d) The company does not have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date.</p> <p>Current liabilities include the current portion of non-current financial liabilities. All other liabilities are classified as non-current.</p>
c)	<p>Property, plant and equipment</p>
	<p>Property, plant and equipment are stated at cost less accumulated depreciation. Cost includes all incidental costs related to acquisition and installation, other pre-operative costs and interest on borrowed funds, if any, used to finance the acquisitions of fixed assets and is capitalized up to the date the assets are ready for commercial use.</p> <p>Depreciation is provided over the estimated useful life of the assets using written down value method. The rates of depreciation used are those which have been calculated as per the method specified in Schedule II of the Companies Act, 2013. The new Companies Act prescribes that the asset should be written off over its useful life as estimated by the management and provides the indicative useful lives for the different class of assets. Other assets are depreciated over their balance useful life.</p>
d)	<p>Impairment of assets</p>
	<p>The carrying values of assets / cash generating units at each balance sheet date are reviewed for impairment if any indication of impairment exists.</p>

If the carrying amount of the assets exceed the estimated recoverable amount, an impairment is recognized for such excess amount. The impairment loss is recognized as an expense in the statement of profit and loss, unless the asset is carried at revalued amount, in which case any impairment loss of the revalued asset is treated as a revaluation decrease to the extent a revaluation reserve is available for that asset.

When there is indication that an impairment loss recognized for an asset (other than a revalued asset) in earlier accounting periods no longer exists or may have decreased, such reversal of impairment loss is recognized in the Statement of Profit and Loss, to the extent the amount was previously charged to the Statement of Profit and Loss. In case of revalued assets such reversal is not recognized.

e)

Cash and cash equivalents

Cash equivalents represent highly liquid investments with remaining maturities, at the date of purchase/investment, of three months or less. As of the balance sheet date, the Company had no such investment. Cash and cash equivalents comprise of cash in hand and balance in bank accounts.

f)

Inventories

- (a) Inventories are valued at cost or net realisable value, whichever is lower. Stock of finished goods, traded goods, raw materials, own manufactured components, work in progress and stores are determined on First In First Out basis.
- (b) Obsolete, defective and unserviceable stocks are duly provided for.

g)

Revenue recognition

The Company uses the percentage-of-completion method in accounting for its fixed-price contracts. Use of the percentage-of-completion method requires the Company to estimate the efforts or costs expended to date as a proportion of the total efforts or costs to be expended. Efforts or costs expended have been used to measure progress towards completion as there is a direct relationship between input and productivity. Revenue on time and material contracts are recognized as there lated services are performed and revenue from the end of the last invoicing to the reporting date is recognized as unbilled revenue. Further, the company uses significant judgments while determining the transaction price allocated to performance obligations using the expected cost plus margin approach.

h)	Other operational revenue
	Other operational revenue represent income earned from the activities incidental to the business and is recognized when the right to receive the income is established as per the terms of the contract.
i)	Interest
	Interest income is recognized on a time proportion basis by considering the amount outstanding and rate applicable.
j)	Current tax
	Interest income is recognized on a time proportion basis by considering the amount outstanding and rate applicable.
k)	Deferred tax
	The deferred tax charge or benefit and the corresponding deferred tax liabilities and assets are recognized using the tax rates that have been enacted or substantially enacted as at the balance sheet date. Deferred tax assets are recognized only to the extent there is reasonable certainty that the asset can be realized in future, however, where there is unabsorbed depreciation or carried forward loss under taxation laws, deferred tax assets are recognized only if there is a virtual certainty of realization of the assets. Deferred tax assets are reviewed as at each balance sheet date and written down or written up to reflect the amount that is reasonably/virtually certain to be realized.
l)	Minimum Alternate Tax (MAT)
	MAT credit asset is recognized where there is convincing evidence that the asset can be realized in future. MAT credit assets are reviewed at each balance sheet date and written down or written up to reflect the amount that is reasonably certain to be realized.
m)	Earnings per share
	The Company reports basic earnings per share (EPS) in accordance with Accounting Standard - 20. The basic earnings per share is computed by dividing the net profit/loss attributable to equity shareholders for the year

	by the weighted average number of equity shares outstanding during the year. The Company has no potentially dilutive equity shares outstanding during the period.
n)	Segment Reporting
	The Company operates in a single primary business segment . Hence, there are no reportable segment as per AS 17 Segment Reporting.
o)	Provisions and contingent liabilities
	The Company recognizes a provision when there is a present obligation arising from a past event that probably requires an outflow of resources and a reliable estimate can be made of the amount of the obligation. A disclosure for a contingent liability is made when there is a possible obligation or a present obligation that may, but probably will not, require an outflow of resources. Where there is a possible obligation or a present obligation that the likelihood of outflow of resources is remote, no provision or disclosure is made.
